CLASSIFICATION	GENERAL DOMESTIC USE	BS14499 (2015)

Disclaimer
Whilst ever effort is made to ensure its accuracy, the data on this sheet is meant for information purposes only. The typical properties listed are the result of extensive laboratory tests, but since Carpenter has no control over the end use of each material, we cannot guarantee these results are obtained in practice. Users should conduct their own tests to determine the suitability of each material for its intended application.
