CARPENTER UNDERLAY®

Firmstep®

The professionals choice

HEAVY CONTRACT 7mm

SUITABLE FOR DOUBLE STICK

- A contract product ideally suited for offices, hotels, shops, care homes and all commercial areas which experience heavy traffic
- Guaranteed for the lifetime of the carpet
- Protects your carpet from premature wear
- Excellent heat and sound insulation (not suitable for underfloor heating)
- This product is made from recycled material and is recyclable at the end of its life
- An environmentally responsible product made in the UK
- Carpenter underlays are permeable and may be laid over a wood block floor
- For double stick installations fit the product printed side to the floor and refer to our double stick guide
- This product is made from polyurethane foam
- Flame retardant and meets stringent British Standards

Disclaimer
Whilst ever effort is made to ensure its accuracy, the data on this sheet is meant for information purposes only. The typical properties listed are the result of extensive laboratory tests, but since Carpenter has no control over the end use of each material, we cannot guarantee these results are obtained in practice. Users should conduct their own tests to determine the suitability of each material for its intended application.
